

Sirs, I'm in the Military and work at NAS JRB FT Worth, TX. I live in Arlington the commute is generally 30 to 45 minutes, my wife drives to Plano which is a 45 minute to 1 hour drive. I have said this to tell you that XM's traffic and weather keep the drive to and from work bareable. I see in no way how XM is effecting you I and others like me PAY for the use of XM. You should not use goverment to fight you battles for your bad programming choices. AM radio didn't cry to the goverment when the broadcasters invented FM they realized that it was change and jumped on the train. I would love to have some broadcast radio channles offered on XM and would invite both sides to work out and agreement where both parties can live as one. BUT DON'T DRAG THE GOVERMENT IN TO YOUR BUSINESS DO YOU WANT THE GOVERMENT TO RUN YOUR RADIO STATION?????? OR CAN YOU!!!!
